

Art Home Learning Project 2

This half term in Art you are going to continue to look at how Artists, Designers and Crafts people have been inspired to produce pieces of art work by looking at patterns and other structures, from Architecture and Natural Forms.

You are going to produce either a mask, a piece of jewellery or a piece of wrist armour.

This project will consist of 3 tasks;

1. Produce a mood board.
2. Produce a design sheet.
3. Produce a 3D artefact.

Task 1

You should spend 30minutes on this task

Choose which theme you would like to base your work on **either** Architecture **OR** Natural Forms. Produce a mood board of images and ideas for your chosen theme. Use the examples on this page to give you inspiration.

A mood board is a type of collage that shows colours, textures and different images that could be used in a design project. It is a collection of inspirational elements.

Choose a colour theme. Think of colours that complement each other and go together well.

Use a mixture of magazine or internet images. You could add some of your own drawings.

Add images of either Architecture (Buildings, arches, doorways, towers, etc.) or Natural Forms (flowers, fruit, seed pods, shells, etc.) also add in images of your chosen outcome (Mask, Jewellery or armour)

Task 2

You should spend 45 minutes on this task.

Using inspiration from the images and colours you have used on your mood board produce a design sheet showing ideas for either;

- A Mask.
- A piece of jewellery.
- A piece of wrist armour.

Remember you should still be sticking to your chosen theme of either Architecture or Natural Forms.

Add colour to your design sheet and notes about what your ideas and inspiration came from. Explain what materials you are going to use to make the final item with.

Task 3

You should spend approximately 2 hours on this task.

Produce your design as a piece of 3D work. Make your product using materials like card, string, wire, bottle tops, buttons, fabric, paper, twigs, leaves, feathers, etc. Use the internet to help you search for ideas on how to make your 3D piece or speak to your art teacher for ideas. You could even use the art rooms at lunchtimes if you need any help.
