

A-Level PE - Anatomy and physiology – Induction task

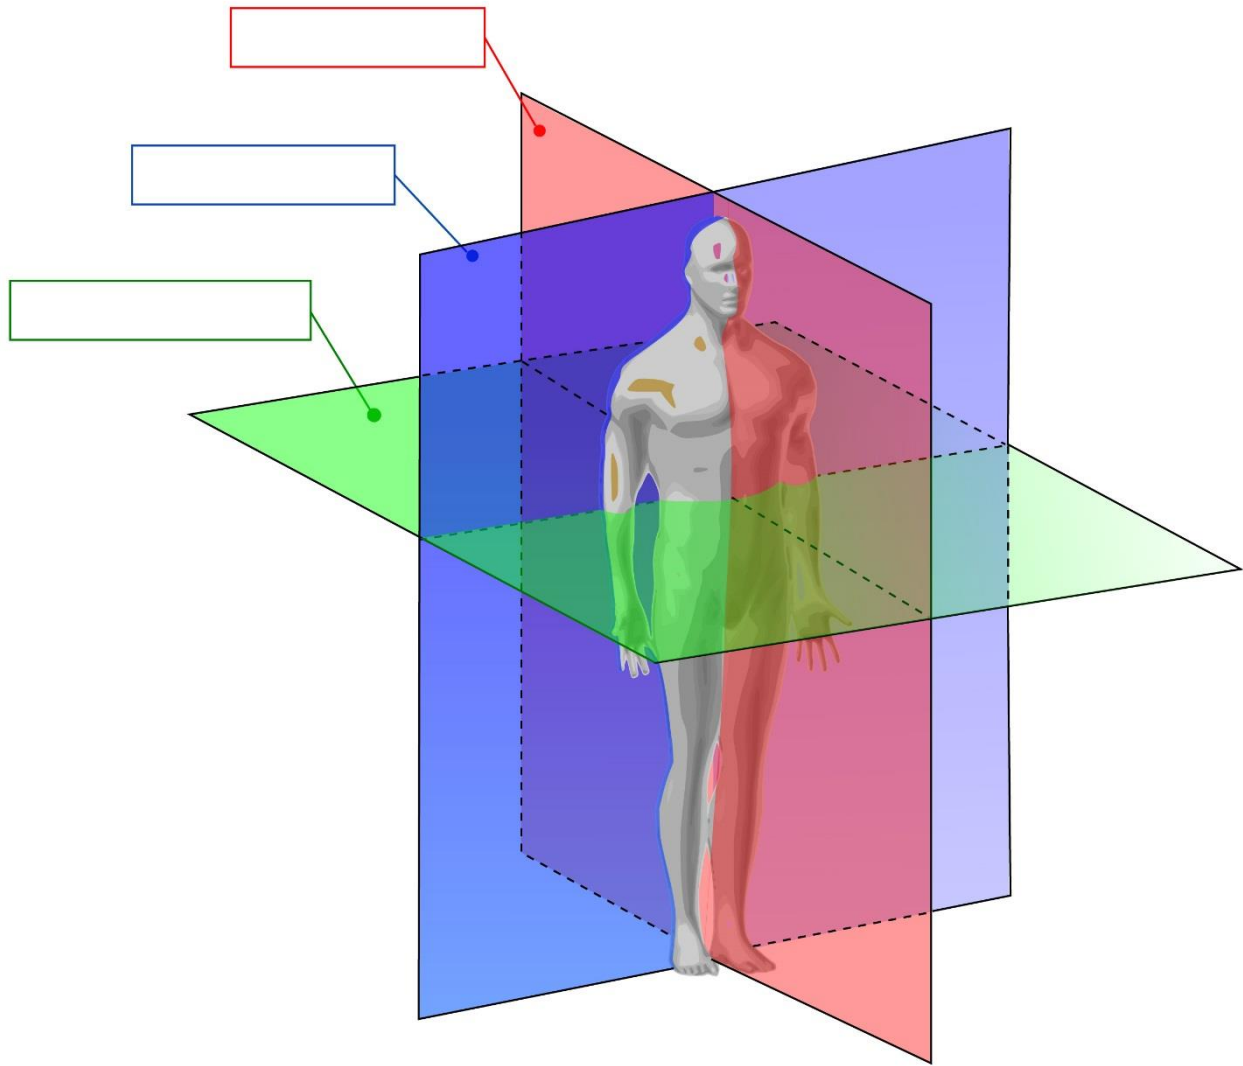

The skeletal system

Label the skeleton below (and learn the names of each of bone)

Planes of movement

Label the 3 planes of movement on the diagram and complete the table below

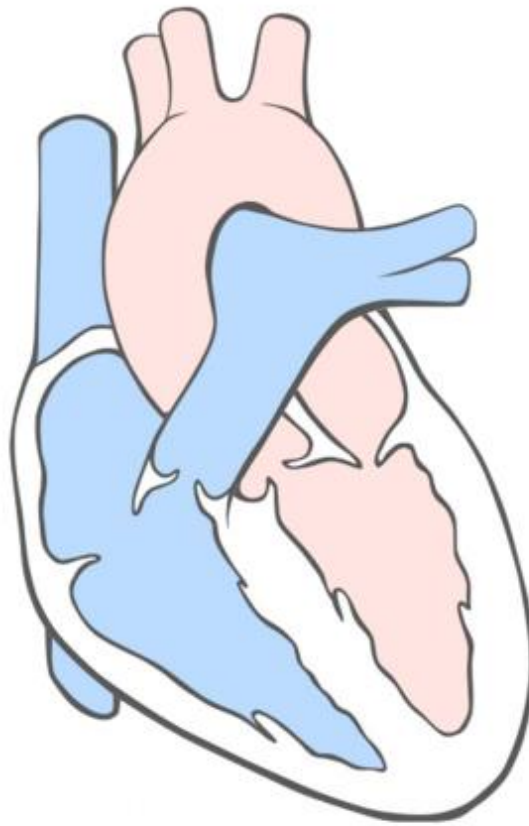

Plane of movement	Description	Examples of movement in this plane

Cardiovascular system – research task

Draw and add the following labels to the diagram

1. SA node
2. Right and Left atria
3. AV node
4. Bundle of His
5. Bundle branches
6. Purkinje Fibres

Use the numbered labels to describe the action of the conduction system in controlling a heartbeat
